

The Republican Party as a whole is allowed to nominate only 24 pages per class (spring, summer, fall). Since there are more than 24 Republican Members of Congress, the nominations are done by way of rotation. When a Member is up in rotation they are given all the information needed for the application process and all the requirements for that current semester. The Member up in rotation may nominate one student, who is voted on by a separate page board. The Republican Leaders office is in charge of the rotation process and we are unsure when Congressman Rooney will be up in rotation at this time. Once Congressman Rooney is able to nominate a student for the page program we will announce it and provide all supporting materials accordingly. A Member is allowed to nominate anyone from his or her State so you may also ask other Members and Senators from Florida who may be up for their turn in nomination for the current application.

Eligibility for the Page Program during the academic year is limited to high school juniors with a 3.0 GPA or higher in the core academic subjects. Applicants for the summer program may include rising juniors or rising seniors. All applicants must be at least sixteen years old by the date they begin their Page term. A student who is related to a sitting Member of Congress may not serve as a Page. For more information about the page program please visit the page website at <http://pageprogram.house.gov/>.
